

# Frame collection

Welcome in a world where details matter.  
Optimized Function, Space saving, Time saving installation.

## Frame Collection

The *Frame Collection* provides solutions for small spaces. Most products cleverly combine appropriate functions reducing time during installation significantly. With just 2-4 screws each accessory is elegantly mounted with a concealed fixing. The removable inlays out of high quality ABS are easy to maintain, recyclable, colour stabilized and equipped with rubber pushers to prevent trembling while being used for example on cruise ships. The products rated highest by our core customers built the *Frame Collection*. It is a future proof platform as the finish of the holder or the colour of the inlay can be easily changed to stay on trend.

*Optimized Function*

*A relaxing sanctuary*

*Storage solution*

*Integrated functions*  
*Optimized use*  
*Multifunctional*

*Hospitality*

**Geesa** is specialist in high quality bathroom accessories with an eye for details and thought through design. Since more than 130 years we are designing, developing, producing and delivering bathroom accessories with passion and commitment. We support architects, designers, clients and (end-) users with creating and realising bathroom interiors, in design and functionality to the maximum extent possible.

Our bathroom accessories can be found in the most well-known hotels and biggest cruise ships, where our products are being used intensively. There our accessories need to ante up against high requirements regarding functionality, design, installation and ease of use. Geesa is internationally orientated in the Dutch tradition. This is recognizable in our designs, high quality standards and sober work style. We anticipate with our clients in creating and offering solutions and where necessary bespoke products and services.
